I am sending the revised manuscript entitled "A practical scheme to introduce explicit tidal forcing into an OGCM" co-authored with H. Tsujino, H. Nakano, M. Hirabara and G. Yamanaka (manuscript ID: os-2013-7), and also posting the replies to the referees' comments (Reply1.pdf and Reply2.pdf).

Following reviewers' comments, Figs. 6 and 11 are added for the revision, Figs. 4, 8 and Table 2 are modified, and the whole manuscript is revised. I believe the manuscript has been improved satisfactorily and hope it will be accepted for publication in Ocean Science.

Yours sincerely,

C294
