Interactive comment on “Spatial scales of temperature and salinity variability estimated from Argo observations” by F. Ninove et al.

P.-Y. Le Traon

pierre.yves.le.traon@ifremer.fr

Received and published: 13 October 2015

thanks for this comment. We will take this into account in our revised version (1/ 1/(1+E) and 2/ not mention the adjustment of correlation function for the explanation of differences in scales).
