

***Interactive comment on “Central Mediterranean
Sea forecast:
effects of high-resolution atmospheric forcings”
by S. Natale et al.***

N. Pinardi (Editor)

n.pinardi@sincem.unibo.it

Received and published: 18 January 2007

The paper requires major revisions before it can be accepted. I suggest the authors answer the referee 1 and 2 major objections and then submit a revised version. After that the paper will be submitted for a third review.
