Received and published: 11 February 2010

The authors wish to thank G. Buffett for his helpful comments.

1) Suggested change has been made in section 1, paragraph 2.

2) The text has been corrected to state that the dominant frequency determines the estimate of vertical resolution (section 2, paragraph 4). Our estimate of vertical resolution has been corrected to ~ 8 m.

Editorial Comment – The reference for Biescas et al. (2008) has been corrected.
