Dear Authors, I would suggest you to found a synonymous of “established”, in the page 1709, first line. I have a doubt in the same page 1709, line 21st and 22nd; in the definition of Stability. I think do you need a “measured”, in the line 22nd “...whereby the environmental conditions ‘measured’ are kept constant in the time.” Sorry if I misunderstand the definition. Best regards Jesus
