

***Interactive comment on “Comparison of the fall rate and structure of recent T-7 XBT manufactured by Sippican and TSK” by S. Kizu et al.***

**S. Kizu et al.**

kizu@pol.gp.tohoku.ac.jp

Received and published: 24 February 2011

The authors personally received a detailed review from one of the manufacturers of the XBT, the Lockheed Martin Sippican. The company missed the opportunity to post the comments on this web site, so we do it by ourselves here by including the sheet of comment as a part of this "reply".

The first two pages of the supplementary PDF file are the company's comments, and the rest is our replies.

Please also note the supplement to this comment:
