

Interactive comment on “A study on distribution of chlorophyll- \vec{a} in the coastal waters of Anzali Port, south Caspian Sea” by S. Jamshidi and N. Bin Abu Bakar

P. Ghaffari

peygham.ghaffari@geo.uio.no

Received and published: 1 June 2011

The paper is about the Caspian Sea which is one the most unknown water bodies of the world. Recent urban and industrial developments in the region attracts some interests and any data could be valuable. However beside to proper and standard English language, manuscript needs to have some minimum qualification for publishing at peer-reviewed OS journal. It seems that authors mostly repeated there last paper entitled: A Study on Concentrations of Dissolved Oxygen and Chlorophyll-a in the Coastal Waters of Babolsar, American Journal of Applied Sciences 6 (10): 1860-1867, 2009 ISSN 1546-9239. By Siamak Jamshidi, Noordin Bin Abu Bakar and Marzieh
