Received and published: 5 July 2011

Thank you very much for your helpful comments on this paper. We made a number of minor changes to the text based on your comments. You did request to see the velocities and/or seasurface heights at the forcing boundaries. We chose not to explicitly show this as being parenthetical to the point of the paper, and refer readers to Foreman’s previous work on this subject. Hopefully that is acceptable.

Sincerely, Jody Klymak
