

Interactive comment on “Numerical modelling of thermodynamics and dynamics of sea ice in the Baltic Sea” by A. Herman et al.

A. Herman et al.

oceagah@univ.gda.pl

Received and published: 5 April 2011

Dear Dr. Stanev,

We fully understand the complaint of the reviewer concerning the small size of Fig.5. This is why we submitted the figure as two separate files, containing panels a,b and c,d, respectively. In the last version of our manuscript Fig.5 was split onto two pages, so that each panel was large enough and all details could be seen. We propose to return to that version - you'll find the two parts of Fig.5 attached to this comment. Or, if you want us to make any further changes to Fig.5, please let us know.

With best regards,

Agnieszka Herman
