Received and published: 25 March 2012

The following proposals for improving the language refers to the pages 1 to 26 of the manuscript;

Page 4, line 14: georefrence should be corrected to georeferenced

Page 5, line 9: 2-D FFT appear without explanation, and later mentioned as FFT-coefficients

Page 6, line 9:  $(dr,dc) = (0,0)$  in not included >  $(dr,dc)=(0,0)$  is not included...

Page 7, line 8: are not a very good measures > are not very good measures

Page 7, line 11: one correlation peaks > one correlation peak

C97

Page 11, line 4: is locating of fast ice > is locating fast ice OR is location of fast ice

Page 12, line 5: areas in the Fig. 6) > areas in Fig. 6)

Page 12, line 27: in the Fig. 7. > in Fig. 7.

Page 15, line 4: Thanks for FMI and MyOcean > Thanks to FMI and MyOcean
