

Dear Editor:

Thank you very much for your effort to polish our paper, and we have accepted it to revise our manuscript.

Some important revisions we would like to inform you include:

1. The author affiliation of the first and second authors have been changed a little.
2. We have added the third author, Xiaolong Zhao, who provided us with the technique of calculation of barotropic streamfunction. Actually we have changed it in our first major revised manuscript.

If you need the latest manuscript with editing line or there is any problem, please inform me.

Best regards.

Wenjun Yao.
