

Interactive comment on “Some aspects of the deep abyssal overflow between the middle and southern basins of the Caspian Sea” by Javad Babagoli Matikolaei et al.

J. M. Huthnance (Referee)

jmh@noc.ac.uk

Received and published: 18 April 2017

This manuscript has already received one review with severe criticisms. Two more reviewers were nominated but the reviews have not yet been received. I think the comments of the first referee should be addressed. In my capacity as editor I expect to refer any revised version to at least two of the referees for re-consideration. This comment is to expedite the review process.
