Interactive comment on "Feedback of mesoscale ocean currents on atmospheric winds in high-resolution coupled models and implications for the forcing of ocean-only models" *by* Rafael Abel et al.

M. Hecht (Editor)

mhecht@lanl.gov

Dear Authors, the leading issues raised by the reviewers could require quite significant work to address. If you do decide to revise please just let us know how much additional time you may need.

yours sincerely, –Matthew Hecht
