

Editor feedback to author response: os-2017-32 Lizotte et al. 16 Oct 2017

Editor

Line801:

(see Review by Ramanan et al., 2016)

change to

(see review by Ramanan et al., 2016)

Response ML:

Line 801 (see Review by Ramanan et al., 2016)

was changed to

(see review by Ramanan et al., 2016)

I have accepted all the changes made to the last version of the revised document (including this last change “Review” for “review”) and will upload this version for final submission. If need be, the marked-up version can also be sent.

As stated in the author instructions, the text must include Tables embedded directly in the document (not as pictures). *“Please make sure that your text is complete and includes the title, authors and their affiliations, abstract, tables (not included as images), and figure and table captions”*. Tables 1 and 2 have been inserted as word Tables however Table 3 is too large (it exceeds the maximum of 10 columns possible). For now it is included as an image (pdf), I will await further instruction concerning this specific Table.
