

Interactive comment on “About the origin of the Mediterranean Waters warming during the twentieth century” by María del Carmen García-Martínez et al.

M. Hecht (Editor)

mhecht@lanl.gov

Received and published: 9 November 2017

Dear Authors, the referees have raised some points that will require a very substantial revision, if the paper is to have a chance of passing through the peer review process. If you resubmit, I will need to see thorough responses to all of these points.

If you do decide to attempt a revision, I would expect it to require more than the allotted time. If this is so, please do not hesitate to ask for an extension.

Sincerely yours, –Matthew Hecht
