Dear Sir, First of all thank you for your prised time to go through my manuscript and give some valuable comment.

Sir, actually we've concentrated on dynamic of seasonal movement of suspended sediment. And there are lots of sources like river, canal and eroded sediments from the beach. As our motive of the work is not to find out the sources of the SSC, so that we have not included this part.

But, thank you very much for your valuable suggestion. We will definitely add the
