Dear Authors, I can see from your reply that you do understand Dr. Schauer's point. As Referee #1 emphasizes, it will be important to better weave that understanding into the presentation of your findings when revising.

Referee #2 provides a specific list of ways in the which they believe the paper may be improved. Please consider this list carefully as you decide how to revise.

I wish you the best with your revision. If a bit more time is needed, don't hesitate to

ask.

Sincerely yours, –Matthew Hecht
