

Interactive comment on “Upscaling of regional models into basin-wide models” by Luc Vandenbulcke and Alexander Barth

Anonymous Referee #1

Received and published: 24 October 2018

The authors have addressed all my comments in their response and i anticipate that the manuscript will be properly revised.

Interactive comment on Ocean Sci. Discuss., <https://doi.org/10.5194/os-2018-79>, 2018.
