

To the Editor of Ocean Science
Dear Prof. John M. Huthnance,

We would like to upload our corrected manuscript entitled, “Frontogenesis of the Angola-Benguela Frontal Zone” written by Shunya Koseki (corresponding author), Herivé Giordani and Katerina Goubanova.

In this correction, we have corrected our manuscript point-by-point following the editor’s comments. In this submission, we upload the corrected manuscript, figures, text file, and supplemental information individually.

We really appreciate the editor for addressing our manuscript, kind consideration, and final decision on our manuscript.

Sincerely,
Shunya Koseki
