Received and published: 4 February 2020

We thank the reviewer for the constructive comments and careful inspection of our manuscript and results. The insightful comments by the reviewer have been taken into account. We also note (as the reviewer points out) that we have been brief at some places and we have now made an effort to include the necessary details. The replies to each of the comments by the reviewer can be found in the supplement pdf, answers are marked blue.

Please also note the supplement to this comment:
