Received and published: 5 August 2020

We highly appreciate helpful comments and suggestions by Prof. Jørgen Berge (Reviewer #1). The replies to each of the comments by Reviewer #1 can be found in the supplement pdf. The comments by Reviewer #1 are underlined and our responses to the comments are in normal characters. Modifications to the text are shown in quotation marks with bold characters indicating newly added text, and normal characters indicating text that was already present in the previous version. The line numbering is referenced to the marked-up manuscript version.
