

Interactive comment on “Model for leisure boat activities and emissions – implementation for the Baltic Sea” by Lasse Johansson et al.

Anonymous Referee #1

Received and published: 1 March 2020

The publication offers results of a sound and scientific based model, and the results will help to assess the risks of shipping and leisure boats in the Baltic Sea

Interactive comment on Ocean Sci. Discuss., <https://doi.org/10.5194/os-2020-5>, 2020.
