

Interactive comment on “Coastal mesoscale processes and their effect in phytoplankton distribution and community composition in the SE Bay of Biscay” by Xabier Davila et al.

Xabier Davila et al.

xabier.davila@uib.no

Received and published: 18 June 2020

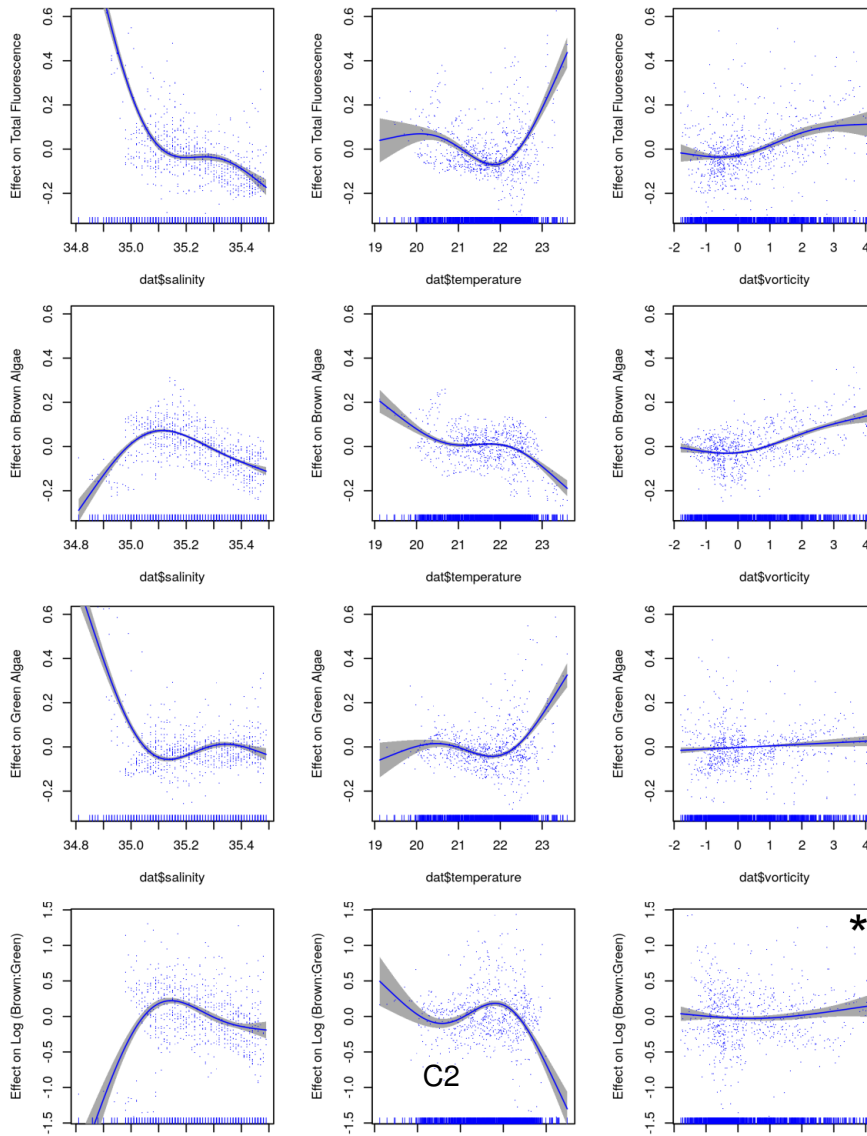

An old version of the figure was uploaded. The relation between the vorticity and the brown:green algae ratio for the section "above the pycnocline" is now marked with an asterisk, as not significant.

Interactive comment on Ocean Sci. Discuss., <https://doi.org/10.5194/os-2020-58>, 2020.
